

Republic of Iraq
Certificate of Registration
(CoR) Scheme for
Manufacturers and
Suppliers

Enabling smooth market access
through our registration services

The State Company for Iraqi Fairs and Commercial Services, a subsidiary of the Ministry of Trade in the Republic of Iraq, has implemented the Certificate of Registration (CoR) Scheme for manufacturers and suppliers from exporting countries.

The CoR Program will commence on 1st October 2020 with a gradual implementation, depending on the product category and in accordance with a specified schedule from which the Certificate of Registration (CoR) for Manufacturers and Suppliers will become a mandatory pre-requisite to obtain the Import License in the Republic of Iraq.

The aim of the CoR scheme is to validate the credibility of manufacturers and suppliers that wish to export goods to the Republic of Iraq. Ensuring that these parties are verified in the country of origin prior to entering the Iraqi market not only promotes governance and safeguards the integrity of the trade environment, it also protects the end consumer whilst minimizing risk for importers and traders.

Global manufacturers and suppliers can also benefit from enhanced ease of doing business and speed to market.

As a reputable gateway for global trade, TÜV Rheinland has been appointed by The State Company for Iraqi Fairs and Commercial Services as the sole independent Certification Body authorized to issue the Certificate of Registration.

A leading independent provider in the Testing, Inspection, and Certification industry, TÜV Rheinland's tradition of excellence dates back to when the company was first established 150 years ago. Our proven experience in conformity assessment and inspection services makes us a trusted and reliable partner to facilitate smooth market access to the Republic of Iraq.
