BIOGENES GMBH

Your excellent partner for custom ELISAs for therapeutic biologicals and diagnostics

BioGenes is a full-service provider of customized immunoassay and antibody development, with a strong commitment to quality and service. Founded in 1992 and headquartered in Berlin, Germany, BioGenes is a recognized partner serving more than 600 customers in 40 countries. The company maintains long-term relationships with CMOs, global pharmaceutical, biotech and diagnostic companies.

BioGenes provides highly customized solutions for the quality control of biological products, from drug discovery and drug development to the manufacturing of biologicals, as well as for diagnostic purposes.

The company has a proven track record in the development, qualification, pre-validation and production of highly sensitive and robust ELISAs and host cell protein (HCP) assays. Furthermore, BioGenes is specialized in sophisticated custom monoclonal, polyclonal and anti-idiotypic antibody development for several purposes.

NEW: BioGenes develops also ELISAs for pharmacokinetic and immunogenicity studies. BioGenes offers a panel of enhanced generic 360-HCP ELISA kits and supports customers with a comprehensive range of analytical services, e.g. 2D analysis and coverage determination of HCPs.
