GARAMANTIS INTERACTIVE TECHNOLOGIES

Garamantis Interactive Technologies – inspire and convince at the live-touchpoint

Garamantis was founded in Berlin in 2014 and designs and develops unique interactive installations like the multi-touch scanner table and the interactive showcase. Individually customized software development is at the center of a multitude of worldwide projects that offer users an impressive interactive experience, for instance at trade shows, events and exhibitions. Garamantis is an official partner of Ars Electronica, one of the world's most prestigious media art institutes. The German government honored the Garamantis founders as one of the most creative and innovative heads in Germany 2020.

- We create interactive showrooms, brand experiences and company exhibitions worldwide
- We offer full-service from idea to WOW
- Technologies used: multitouch installations, 3D-software, VR, AR, interactive projections, interactive showcases, remote presentation systems...
