# REAKTOR.BERLIN

We create the entrepreneurs of the future!  
We connect them! We give initial funding!

*Reaktor.Berlin builds an ecosystem for early-stage startups.*

*At the core is a publicly-funded accelerator program. Around that an experienced team of startup enthusiasts organizes whatever startups need to be successful: funding, corporate contacts, networking, experts on legal issues/tax/sales etc.*

*We want to elevate young entrepreneurs to the highest levels by bringing the right people together also internationally and by giving funding at the very first stage of their development.*

— *Broad overview of Berlin early-stage startups scene*

— *Deeply connected to Berlin for many years*

— *Access to interesting investment opportunities for global growth*
