SIBB E.V.

The SIBB e.V. is the digital business association of Berlin- Brandenburg

SIBB e.V. is an association of more than 270 member companies from different areas of digital economy from Berlin and Brandenburg, which connects the players in the industry and represent their interests in society, politics, and business. SIBB e.V. ensures an active exchange, supports a wide range of industries that want to promote digitization in their companies with its professional services and the TOP experts. The initiation of joint research and development of projects and building networks are other focuses of activity of the SIBB e.V.

Project PointOut is a network for cooperation between the IT industry of the German capital region and the IT centers on the East Coast of the United States. New growth opportunities are opening up to German and American tech companies through trustworthy, cross-national economic activities such as business matching events, business delegations and participation in international IT workshops, conferences and meet-ups. Project supported by Berlin Senate Department for Economics, Energy and Public Enterprises and European Regional Development Fund.

- *Promotion of the exchange, cooperation, knowledge growth and internationalization of the entire digital economy in the region*
- *13 specialist forums, special further training courses and various meet-up events on topics relating to the digital industry*
- *Stimulation of international cooperation, especially with Poland, Russia and USA*
