# EMP BIOTECH

emp Biotech offers quality oligo reagents, resins and services. emp – excellence made possible

*emp Biotech is a primary manufacturer of reagents for oligonucleotide synthesis, fine chemicals, labeling kits, and chromatography resins – ranging from early stage R&D through to large-scale manufacturing in pharmaceutical and biotech environments.*

*We supply our products in scales ranging from a few micrograms to in excess of 1,000 kilograms as a single batch, so our clients can rest assured that we can meet their requirements at all scales of production. We are pleased to invite you to contact us to discuss your requirements and needs – both as alternatives to existing products but also to see how we might help you develop your research and products using less expensive components without having to sacrifice quality.*

*We are ISO 9001 and ISO 13485 certified and operate all manufacturing and research facilities in Berlin, Germany. With an established reputation spanning more than 25 years, we are fully committed to the philosophy that “emp” stands for: excellence – made possible.*

– *emp Biotech is an innovative manufacturer of quality reagents and services for the pharmaceutical and life sciences*

– *emp Biotech is a dynamically growing enterprise, currently with 60 employees at three locations in Berlin and one in the USA*

– *emp Biotech is a reliable partner of pharmaceutical and biotech companies*
