TOMORROW'S EDUCATION (EDTECH)

Tomorrow's Education - the University in your Pocket

Berlin-based EdTech Startup Tomorrow's Education is building a University in your Pocket. The mobile-first platform that allows you to learn whenever and wherever you are was developed by serial entrepreneurs Thomas Funke and Christian Rebernik whose goal is to radically change how we learn. "It starts with high-quality content and easy accessibility, but it is more than that," explains Funke. No classical teaching. No Zoom classes. Instead, Tomorrow's Education is built around byte-sized lessons, challenge-based learning and data-driven feedback. The first program is a Professional Master in Sustainability, Entrepreneurship and Technology (SET) starting on April 22. It is accredited both in the US and in the EU by the Vienna University of Economics and Business, which has joined forces with Tomorrow's Education. Rebernik and Funke have secured EUR 1.1 Mio. in pre-seed funding, with London-based Emerge Education as lead investor. Our Founding Club Partner Network includes Deutsche Bank, Deutsche Börse, PwC Germany, Cheil Germany, DPD and Eintracht Tech.

- Online, Mobile-First Education Platform
- Future-Relevant Curriculum Focused on Sustainability, Entrepreneurship and Technology
- Modern Teaching Method Includes Challenge-Based and Active Learning
