CHRISTIAN DUNKEL TOOLINGS

Christian Dunkel – precision tools and machines that make your production reliable

Since 1991, we have been developing tools and machines for customers all around the world. Clamping fixtures, measuring fixtures and gages for turbine blades and vanes, crimping machines for hydraulic hoses, beading machines for cooling or fuel hoses and tubes and all kinds of custom-made designs of the tool you need to facilitate and optimize your manufacturing process. We combine a strong team of tool designers with extensive manufacturing technologies containing over 70 tool machines. Equipped with 12 coordinate and optical measuring machines throughout our production and assembly, we ensure micro precision for fixtures up to 2 x 2 x 1 meters in size. With our aid, you make your production more reliable.

- *High-precision fixtures, gages and machines: 1/1000 inch is our daily business*
- *100% in-house design and manufacturing to enable short delivery times*
- *Markets: automotive, aerospace, energy and medical*
