

Advance Cargo Information System (ACI)

- Digitalize and facilitate the shipping process
- Control shipping goods entering the country

ACI System Requirements:

- Egyptian Importer
- Registration on NAFEZA e-Portal under:
<https://www.nafeza.gov.eg/en/members/register>

- Foreign Shipper/Foreign Transporter
Registration on CargoX under:
<https://cargox.digital/create-an-account>

ACI System Requirements:

The ACID number consists of 19 digits (numbers only)

- **How to get the (ACID) Number?**

1. **The exporter registers his company on CargoX.**
2. **At the same time, the importer should register his company on Nafeza.**
3. **The importer applies for a personal e-token.**

Should be included on all documents of the shipment

ACI System Requirements:

The ACID number consists of 19 digits (numbers only)

Should be included on all documents of the shipment

- **How to get the (ACID) Number?**

4. The importer applies for a shipment-related ACID number on the Nafeza website for an upcoming shipment. To do this, he fills out an electronic form and signs it with the personal e-token. The form contains, among other things, the following information:

- a) Importer details**
- b) Exporter details**
- c) Product details and shipping details**

ACI System Requirements:

The ACID number consists of 19 digits (numbers only)

- **How to get the (ACID) Number?**

5. The exporter and the importer then receive the ACID number by email from the Nafeza service provider "MTS" (Misr Technology Services, subordinate to the Egyptian Ministry of Finance)

6. The exporter must then enter this ACID number in all documents and upload it to the CargoX portal.

Should be included on all documents of the shipment
