

BAE BATTERIEN GMBH

Since 1899, BAE Batterien has been manufacturing premium lead batteries

Since 1899, BAE has been a synonym for quality and reliability in the market for industrial lead batteries. The core business of BAE is the production of stationary batteries, especially wherever electricity needs to flow without interruption in the emergency power supply for data centres, electrical power supply facilities and telecommunication infrastructure. For many years, BAE has also been entering at early stages into the market for renewable energy and provides solutions for a reliable and environmentally-friendly electrical power supply.

Today, we are an independent medium-sized company with a well-established position in the international battery market. BAE excels in its customer orientation, and quality is our hallmark. A highly flexible and process-orientated structure enables us to provide our customers with tailor-made solutions.

- *120 years of history in manufacturing high-quality industrial lead batteries*
- *Sole premium producer with only production in Germany*
- *Outstanding quality, life-time and reliability of products enabling lowest OPEX*
