

KNOWEAUX APPLIED FUTURES GMBH

We make your organisation **future ready**

KNOWEAUX Applied Futures offers consulting and training services that enable leaders in business and the public sector to cope with the uncertainties of our times and to co-develop long-term oriented solutions and strategies. Based on the Future Modelling methodology - combining elements of foresight with systems thinking, design thinking and experience design - KNOWEAUX offers co-creative and future-oriented formats such as :

- **Future Strategy Programs** (defining a long-term vision for your organization)
- **Future Leadership Workshops** (leading with a visionary mindset)
- **Future Innovation Sprints** (co-development of Future Ready services and concepts)
- **Future Quo Research** (Screening of relevant trends, drivers & barriers)

We have explored topics as varied as Futures of Cities, Work, Mobility, and Health on more than 100 projects - to mention just a few. Well over 2,000 leaders from 32 countries have participated in Further Modeling Formats.

- *We prepare organisations and leaders for radical paradigm shifts in industries and markets*
- *We developed the **Future Modelling Framework** - a powerful methodology to design future-ready services, strategies and organisations*
- *We train teams and individuals in relevant **Future Skills** and long-term thinking*
