

TRANSDEV

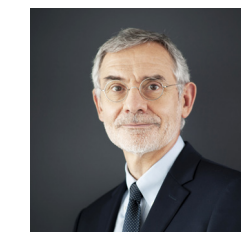

THE MOBILITY COMPANY

Your partner for mobility solutions worldwide

Present in 18 countries, Transdev operates 16 different transportation modes for local authorities, companies and the general public. Transdev mobilises all the resources of a large Group to develop the communities where the company operates. Transdev group, headquartered in Paris, is jointly held by the French Caisse des Dépôts and the German RETHMANN Group. With some 82,000 employees, Transdev gives millions of passengers worldwide every day the freedom to move by means of efficient, user-friendly and sustainable mobility services.

In Germany, Transdev GmbH in Berlin, with over 7,500 employees, is the largest private mobility provider in the rail and bus sector. Transdev operates S-Bahn networks in the Hanover area and around the city of Bremen. Transdev subsidiaries operate several regional rail networks in different federal states as well as a large bus network service across Germany, including growing fleets of climate-friendly electric buses.

- *Transdev is a leading provider of mobility services in 18 countries, ensuring some 11 million daily passenger trips around the world*
- *Headquartered near Paris, France, we are the world's leading operator of zero emission mobility committed to energy transition*
- *The company has pioneered the deployment of electric buses since 2015 and is now experimenting hydrogen fuel-cell buses and trains*
