

# IHK CHAMBER OF COMMERCE AND INDUSTRY BERLIN

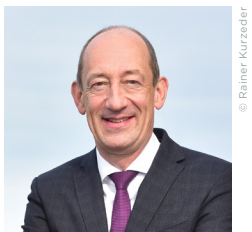

## An independent campaigner for the Berlin business community

We regard ourselves as a joint venture by our 300,000 member companies in Berlin and we act on their behalf. As a strategic partner of companies and institutions in the city, we are dedicated to nurturing a business-friendly environment.

Berlin is the political decision-making centre of Germany, Europe's strongest economy, and as such is an attractive place for international enterprises and institutions to locate. We are delighted to support both local and international enterprises interested in doing business with each other.

With regard to France, we collaborate successfully with various partners in business. Relations with our partner city Paris is highly important for Berlin's economy, and mutual business activities have increased in recent years.

- *Strategic partner to both local and international business*
- *Dedicated to nurturing a business-friendly environment*
- *Collaborating successfully with partners in Paris*
